Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

This book is divided into three sections: The first section contains secular poems, which combine many worldly subjects both comical and truthful. Most of these facts are general information that should be remembered. The second section deals with poems of Religious standards emphasizing the Deity and Glory of the lord Jesus Christ and the many sacrifices he made because he loves us, and he shows us real love. When married couples know that kind of love they build a perfect family. The third section is "The Family Section," which shares observation of an average type family closely knit. All this is in poetic form so that it can be read with rhythmic enjoyment.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
