It is just one of the remarkable mathematical images to be found in the new book, 'Ada Lovelace: The Making of a Computer Scientist'. Ada, Countess of Lovelace (1815–1852) was the daughter of poet Lord Byron and his highly educated wife, Anne Isabella. Active in Victorian London's social and scientific elite alongside Mary Somerville, Michael Faraday and Charles Dickens, Ada Lovelace became fascinated by the computing machines devised by Charles Babbage.

sarahbaldwin | Ada Lovelace

The daughter of famed poet Lord Byron, Augusta Ada Byron, Countess of Lovelace - better known as Ada Lovelace - was born in London on December 10, 1815. Ada showed her gift for mathematics at an early age. She translated an article on an invention by Charles Babbage, and added her own comments. Because she introduced many computer concepts, Ada is considered the first computer programmer. Ada died on November 27, 1852.

Science and ...

Ada Lovelace has become an iconic figure for women in science and is often credited with the invention of modern computing. But, as Ursula Martin—mathematician, computer scientist and Lovelace biographer—explains, all of that is a bit overblown. The Lovelace myth obscures the truth about a woman who was certainly a very brilliant mathematician, but who was also often frustrated in her scientific ambitions, in poor health and unhappy.

ADA Lovelace: The Making of a Computer Scientist: Hollings ...

Ada was a descendant of the extinct Barons Lovelace and in 1838, her husband was made Earl of Lovelace and Viscount Ockham, meaning Ada became the Countess of Lovelace. In 1843–44, Ada's mother assigned William Benjamin Carpenter to teach Ada's children and to act as a "moral" instructor for Ada. [33]
