George Orwell's celebrated novella, Animal Farm, is a biting, allegorical, political satire on totalitarianism in general and Stalinism in particular. One of the most famous works in modern English literature, it is a telling comment on Soviet Russia under Stalin's brutal dictatorship based on a cult of personality which was enforced through a reign of terror. The book tells a seemingly simple story of farm animals who rebel against their master in the hope of stopping their exploitation at the hand of humans and creating a society where animals would be equal, free and happy. Ultimately, however, the rebellion is betrayed and the farm ends up in a state as bad as it was before. The novel thus demonstrates how easily good intentions can be subverted into tyranny.Orwell has himself said that it was the first book in which he had tried, with full consciousness of what he was doing, "to fuse political purpose and artistic purpose into one whole." The book was first published in England in 1945, and has since then remained a favourite with readers all over the world, and has consistently been included in all prestigious bestseller lists for the past many years.

Set at the beginning of the Second World War, Coming Up for Air describes suburban insurance agent George Bowling's return to his birthplace, a sedate Oxfordshire village. This new edition of one of George Orwell's early pre-war works explores the historical and political context of the novel.

"Money is what God used to be. Good and evil have no meaning any longer except failure and success." Disgusted by society's materialism, Gordon Comstock leaves his job in advertising to pursue an ill-fated career as a poet. In his race to the bottom, only Rosemary, his long-suffering girlfriend, challenges Gordon's self-destructive course. The novel contains the most sustained reflections on the role of the author and the artistic imagination anywhere in Orwell's fiction, as the book's protagonist struggles (and ultimately fails) to reconcile his romantic-aestheticist sensibilities with the pressures of the literary marketplace and with social expectations. Completed while Orwell travelled north to work on The Road to Wigan Pier, this novel is a key transitional text in his career. Offering a powerful portrayal of the emotional toll of precarity and the desire to break with capitalism, Keep the Aspidochelone Flying is a significant work of mid-century British fiction but it also speaks to our own time. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Based on his experiences as a policeman in Burma, George Orwell's first novel is set during the end days of British colonialism, when Burma is ruled from Delhi as part of British India.

Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.

With over 70,000 copies of the first edition in print, this radical treatise on public education has been a New Society Publishers' bestseller for 10 years! Thirty years in New York City's public schools led John Gatto to the sad conclusion that compulsory schooling does little but teach young people to follow orders like cogs in an industrial machine. This second edition describes the wide-spread impact of the book and Gatto's "guerrilla teaching." John Gatto has been a teacher for 30 years and is a recipient of the New York State Teacher of the Year award. His other titles include A Different Kind of Teacher (Berkeley Hills Books, 2001) and The Underground History of American Education (Oxford Village Press, 2000).

The animal agriculture industry, like other profit-driven industries, aggressively seeks to shield itself from public scrutiny. To that end, it uses a distinct set of rhetorical strategies to deflect criticism. These tactics are fundamental to modern animal agriculture but have long evaded critical analysis. In this collection, academic and activist contributors investigate the many forms of denialism perpetuated by the animal agriculture industry. What strategies does the industry use to avoid questions about its inhumane treatment of animals and its impact on the environment and public health? What narratives, myths and fantasies does it promote to sustain its image in the public imagination? 'powerful, timely and essential' - David Nibert, author of Animal Oppression and Human Violence: Domesecration, Capitalism, and Global Conflict 'Meatsplaining equips us to identify the lies at the heart of animal agriculture. It's an excellent and timely compilation on an exceedingly vexing problem.' - Carol J. Adams, author of The Sexual Politics of Meat and Burger 'Meatsplaining is the first book to give an apt name to the animal agriculture industry's relentless campaign of disinformation and denialism ... Written in a clear, lively, and accessible style, Meatsplaining will surely educate the public about the horrors of animal agriculture.' - Marc Bekoff, author of The Animals' Agenda: Freedom, Compassion, and Coexistence in the Human Age 'Cruelty thrives in secrecy, and the meat industry is highly skilled at concealing the routine abuse and misery that flourishes on modern farms. Meatsplaining cuts through the spin, and exposes the meat industry's massive PR machine. It explores how Big Meat uses language, obfuscation, and denial to misdirect the public's attention away from its commodification of sentient animals, environmental devastation, and the looming health crisis caused by eating animals. This book is a must-read for animal advocates, and anyone else who no longer wants to be lied to.' - Camille Labchuk, Executive Director, Animal Justice 'This book ... provides a necessary corrective to the fantasy world created by meat industry propaganda. As we grapple with a global zoonotic pandemic and biodiversity crisis, it is urgent for us to ... start thinking clearly about who and what is on our plates.' - John Sorenson, Brock University
