You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . .admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer.

She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory. Secession is usually an outcome of the political mobilization of a population on the territory to be detached and, as a political phenomenon, is a subject of study in the social sciences. Its impact on inter-state relations is a subject of study in international relations. But secession is also subject to regulation both in the constitutional law

of sovereign states and in international law. Following a spate of secessions in the early 1990s, legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions. Moreover, since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers. This research companion has the following three complementary aims. First, to offer an overview of the current theoretical approaches to secession in the social sciences, international relations, legal theory, political theory and applied ethics. Second, to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession. Third, to offer an account of major secessionist movements - past and present - from a comparative perspective. In their accounts of past secessions and current secessionist movements, the contributors to this volume focus on the following four components: the nature and source of secessionist grievances, the ideologies and techniques of secessionist mobilization, the responses of the host state or majority parties in the host state, and the international response to attempts at secession. This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession.

Based on the successful Baby Owner's Manual, The Baby Owner's Maintenance Log presents a refreshing alternative to traditional sugar-sweet baby journals. Hip parents can record all major milestones and measurements in these pages, including the arrival of the unit, fuel preferences and speech activation. Spiral binding, hilarious illustrations and a bound-in envelope for keepsakes make this guided journal a great shower gift.

An application of differential forms for the study of some local and global aspects of the differential geometry of surfaces. Differential forms are introduced in a simple way that will make them attractive to "users" of mathematics. A brief and elementary introduction to differentiable manifolds is given so that the main theorem, namely Stokes' theorem, can be presented in its natural setting. The applications consist in developing the method of moving frames expounded by E. Cartan to study the local differential geometry of immersed surfaces in R^3 as well as the intrinsic geometry of surfaces. This is then collated in the last chapter to present Chern's proof of the Gauss-Bonnet theorem for compact surfaces.

In the tenth murderous case for Richard Jury, the New Scotland Yard superintendent witnesses a killing in a West Yorkshire inn called the Old Silent, while his highborn, amateur colleague, Melrose Plant wishes to he could perform one as he drives his impossible Aunt Agatha to the Old Swan in Harrogate. Caught up in a triple murder, Jury would go to any lengths to help Nell Healey, the lovely widow of one of the victims. But Nell Healey remains silent as the Yorkshire moors, quiet as the grave, while the scope of the mystery widens.

"The Unknown Soldier" ... "On the Side of the Angels" ... "The Wolves of Vimy" ... "The Secret of Blackwater Island" ... "Where the White Long Roadway Lies" ... Here are nineteen stories that look back on the horrors of The Great War, stories in the tradition of Arthur Machen's "The Bowmen," which gave rise to the myth of the Angel of Mons. Here are tales that create their own myths of that terrible war.
