Information System Project Documentation

There's no doubt that project documentation is a vital part of Project management training. The essential two functions of documentation substantiate it: to make sure that project requirements are fulfilled and to establish traceability concerning what has been done, who has

done it, and when it  
has been done.

*Importance of Project  
Documentation in  
Project Management*

The purpose of your  
project document is to  
explain your project  
goal(s) and vision(s)  
to the stakeholders.

You need to focus on  
who is going to  
benefit your project
