N.B., Moonwalking With Einstein an enjoyable and accessible read but, for me, a quick three hour skim was enough. If this is your first ever book on memory, or you're reading for entertainment, then pick up a copy (great adds would be Ericsson's Peak and Duhigg's Power of Habit).If you want to improve your memory, read e.g., Lorrayne's Memory Book or Cicero's Rhetorica ad Herennium.

'Be prepared to be amazed' Guardian Can anyone get a perfect memory? Joshua Foer used to be like most of us, forgetting phone numbers and mislaying keys. Then he learnt the art of memory training, and a year later found himself in the finals of the US Memory Championship. He also discovered a truth we often forget: that, even in an age of technology, memory is the key to everything we are. In Moonwalking with Einstein he takes us on an astonishing journey through the mind, from ancient 'memory palace' techniques to neuroscience, from the man who can recall nine thousand books to another who constantly forgets who he is. In doing so, Foer shows how we can all improve our memories. 'Captivating ... engaging ... smart and funny' The New York Times 'Delightful ... uplifting ... it shows that our minds can do extraordinary things' Wall Street Journal 'Great fun ... a book worth remembering' Independent 'A lovely exploration of the ways that we preserve our lives and our world in the golden amber of human memory' New Scientist

Moonwalking with Einstein by Joshua Foer | Summary & Analysis Preview: Moonwalking with Einstein recounts author Joshua Foer's yearlong journey from participant-journalist covering the national memory championships to becoming the 2006 USA World Memory Champion. Other segments offer a journalistic history of the human relationship with memory, addressing its failings, its successes, and its limitations. Most people operate according to a series of misconceptions about human memory. Above all, many believe that they have an average brain and are therefore incapable of performing mental feats such as swiftly memorizing a deck of playing cards shuffled into random order. This belief, however, is false. Memory champions are no smarter than anyone else and have unremarkable brains from a biological standpoint. The difference is in how memory champions use their brain. They employ techniques and training to overcome shortcomings that are hard-wired into the human brain anatomy. Even those who appear to possess a photographic memory likely do not and are instead employing other memorization techniques... Kings and queens, British prime ministers, American presidents, countries of Europe... We should all know these things - but like me, you're probably resigned to being the kind of person that just never will. Now Grandmaster of Memory Ed Cooke offers up his memory secrets with a fun, quick and completely unforgettable way to remember the things you thought you never could. But this is no boring Willy, Willy, Harry, Ste. With Ed leading the way on unlikely adventures through people and places, Abraham Lincoln may become a circle of bra-wearing hams linking arms in your mind, and you may well encounter a fridge wearing Calvin Klein underpants. You could also soon find yourself rattling off the prime ministers to a rapt audience and adding, in a knowing tone, 'ah yes, Marquess of Rockingham, Whig I believe?'. What is for sure is that you'll be bursting with knowledge that will stick in your mind and impress your friends for ever.
