This handbook provides detailed instructions for guideline developers on the following topics: application of high quality methodology for guideline development using systematic search strategies, synthesis and quality assessment of the best available evidence to support the recommendations; appropriate collection and management of experts' declared conflict of interest; expert group composition including content experts, methodologists, target users, policy makers, with gender and geographical balance; instructions for the management of group process to achieve consensus among experts; standards for a transparent decision-making process, taking into consideration potential harms and benefits, end users values and preferences; developing plans for implementing and adapting guidelines; and minimum standards for reporting.--Publisher description

Sharp and focused, this book provides the need-to-know information on how to design and implement a good, high quality research project. Oriented around real-world application, it emphasizes the aspects of research most relevant to conducting practice-based research. Assuming no prior knowledge, but appropriate for experienced learners, it builds knowledge at a sustainable pace. It offers readers: - A no frills guide to methodology and the theory of conducting research - Strategies for communicating complex ideas - Insight into common impact-driven methods like action research, case study, and mixed methods - Ways to develop systematic research projects within the boundaries of everyday working life - Ample opportunities to test and apply newfound knowledge. With streamlined advice tailored specifically to support research in professional contexts, this book is the essential toolkit every researcher who is embarking on a practice-led project needs.

Specifically designed for California students and teachers. The California Mathematics Content Standards are unpacked, taught, and then reinforced throughout our program so that teachers can plan, diagnose, teach, assess, and intervene with the standards in mind.

This WHO's report provides a global overview of progress towards each of the health MDGs to date and identifies the challenges to be addressed if we are to meet the goals. It presents the essential elements - the strategies and inputs - that will help the international community working collectively, to tackle the health crisis facing many poor countries, and in doing so, contribute to poverty reduction.
