How to Succeed in Business Without Really Dying (Ep.209) **Original Air Date:** 6.11.20

A guide for aspiring African American entrepreneurs offers advice on how to overcome business challenges, take advantage of available opportunities, and find success in corporate America

For many years, television comedy was an exclusive all boys' club—until a brilliant comedian named Carol Leifer came along, blazing a trail for funny women everywhere. From Late Night with David Letterman and Saturday Night Live to Seinfeld, The Ellen Show, and Modern Family, Carol has written for and/or performed on some of the best TV comedies of all time. This hilarious collection of essays charts her extraordinary three-decade journey through show business, illuminating her many triumphs and some missteps along the way—and offering valuable lessons for women and men in any profession. Part memoir, part guide to life, and all incredibly funny, How to Succeed in Business without Really Crying offers tips and tricks for getting ahead, finding your way, and opening locked doors—even if you have to use a sledgehammer.

Robert Herjavec has lived the classic "rags to riches" story, from having \$20 in his pocket to starting up technology companies worth hundreds of millions of dollars. Now the star of television's Dragons' Den and Shark Tank, this son of Croatian immigrants earned his incredible wealth by overcoming the odds with hard work and determination. On television, Herjavec bankrolls the best inventions and shoots down the best of intentions. Now, he's sharing his hard-won wisdom in one of the most inspirational business books of recent times. In Driven, Herjavec shares the secrets that took him from his job waiting tables to growing his nascent technology company into a world-class conglomerate, The Herjavec Group. Herjavec's principles are as valuable in the living room as they are in the boardroom. Anyone can succeed, on their own terms, by following his sage but simple advice—if they're willing to take chances, to take control of their own future and to stay true to their own visions.

When How to Succeed in Business Without a Penis was released, it became an instant best-seller for a huge reason: it revealed insightful differing business styles men and women practice-and actionable techniques each can learn from the other. Sun Tzu in The Art of War says: " in the wise leader's plans, considerations of advantage and of disadvantage will be blended together." Salmansohn blends. First, she exposes ten male advantages (some to be learned, some to be spurned). Next, she reveals advantages and disadvantages of female attributes. And Salmansohn offers her actionable advice with her trademark irreverent humor-a humor which John Stewart has gone on record as appreciating, saying, "Salmansohn has the soul of a stand-up comic." Salmansohn also teaches how to find "Career Waldos" (hidden career goals) and keep them firm with exercises to develop "wills of steel," the most crucial muscles for climbing to the top of the corporate ladder. Since this best-selling release, Salmansohn has penned over 20 more books including How to be Happy, Dammit, and Bally. Visit her at www.notsalmom.com

From this classic tome, learn everything you need to know to land the corner office: · How to make money · How to make more money · How to choose the right company (one big enough so that nobody knows exactly what anyone else is doing) · How to cultivate the appearance of extreme busyness through strategic desk management · How to delegate responsibility (have plenty of assistants!) First published in 1952, this guide inspired the beloved Pulitzer Prize-winning musical, which returns to Broadway in 2011 in a production that stars Daniel Radcliffe and John Larroquette. Updated with a brilliant new introduction by the king of business satire, Stanley Bing, How to Succeed in Business Without Really Trying is essential reading for the ambitious and the lazy alike.

In this book, I will show you how good basic business principles should be applied and followed. It is written for men and women who are already in business, those starting a business, and entrepreneurs ready to launch a new idea, and students leaving college or university wanting to make their way in business. Business is not an exact science. There is no written formula that can guarantee success, but there are basic rules that must be followed if you are to be successful. I have drawn on my past experiences in business, my failings, the shortcomings of the thousands I have mentored, and those who have consulted me. I have written what I believe is an easy-to-read, easy-to-understand guide, of the basic do's and don'ts in business. My comments are set out in a practical manner, based on fact, not as an academic lecturer in a college or university would tell you. Those who have been to college or university may find my views very different because they are gained at the actual front line of business. There is no better advice than firsthand knowledge and experience. Businessmen want nitty gritty information that they can use and relate to their business. This is what you will get from my book.

After the greed-centered eighties, Americans are focusing on the elements that really build a lifetime of achievement-honesty, hard work, visionary thinking, and commitment. International entrepreneur Jack Nadel's pithy, proven advice gets to the hear of the back-to-basics 1990s: •A deal is only good if it's good for everybody involved •Sell the sizzle-but make sure there's a good steak underneath •If you tell the truth, you don't need a great memory A good idea has no geographical boundaries.

The Definitive Guide to Doing Business in Africa For global and Africa-based companies looking to access new growth markets, Africa offers exciting opportunities to build large, profitable businesses. Its population is young, fast-growing, and increasingly urbanized--while rapid technology adoption makes the continent a fertile arena for innovation. But Africa's business environment remains poorly understood; it's known to many executives in the West only by its reputation for complexity, conflict, and corruption. Africa's Business Revolution provides the inside story on business in Africa and its future growth prospects and helps executives understand and seize the opportunities for building profitable, sustainable enterprises. From senior leaders in McKinsey's African offices and a leading executive on the continent, this book draws on in-depth proprietary research by the McKinsey Global Institute as well as McKinsey's extensive experience advising corporate and government leaders across Africa. Brimming with company case studies and exclusive interviews with some of Africa's most prominent executives, this book comes to life with the vibrant stories of those who have navigated the many twists and turns on the road to building successful businesses on the continent. Combining an unrivalled fact base with expert advice on shaping and executing an Africa growth strategy, this book is required reading for global business executives looking to expand their existing operations in Africa--and for those seeking a road map to access this vast, untapped market for the first time.
