A gripping political thriller set over two weeks in the aftermath of Brexit, Javelin will not disappoint fans of Detective Chief Inspector John Kerr. Two explosions in Victoria mark the beginning of a bombing campaign against banking institutions in London. The attacks bear the hallmarks of Irish republican dissidents but are disowned by IRA volunteers and politicians in Belfast. Kerr believes the bombs are the work of the extremist group Anti-Capitalist Insurrection, with attacks in London the first stage of a devastatingly deadly campaign across Europe...can Kerr stop them in time?

A suspected terrorist is frisked for explosives on the Embankment. Operators do this so skilfully he remains completely unaware... In New Scotland Yard a new brand of manager fails to deal with escalating threats - 'aggressive indecision' is what Detective Chief Inspector John Kerr calls it... He discovers that cocaine-fuelled sex parties in Knightsbridge are pulling in businessmen, Russian diplomats and senior members of the British government... When Kerr's investigations are blocked by his bosses in Scotland Yard, he decides to go it alone and begins to expose a cover-up that extends to all levels of the British Establishment. Agent of the State is the first novel by Roger Pearce, a former Special Branch officer at New Scotland Yard who rose to become its Commander and a key player in Whitehall's intelligence network. It is an authentic account of the way the British intelligence services work at all levels and of the hypocrisy of the British establishment.

The Singularity's Children Series: As the Third Millennium dawns, the world is slipping beyond human comprehension. Citizens are bewildered and angry; kept in line only by vast programs of computer-driven propaganda. Leaders are in Denial, clinging to the illusions of an idealised past, unable to move beyond corporate greed and political charade. But an emerging movement of techno-optimists can see post-scarcity utopias glittering on the horizon and have started building a collaborative future for all of Singularity's Children... Book One - Denial: Keith knows the 21st century is no place for a moral backbone. Not even a corporate expense account and the occasional synthetic liaison can air-gap him from the blood on his hands. With neural prosthetics giving voices to our animal cousins, Niato, the grandson of a Sushi chain billionaire, is recruited into Eco-Terrorism by a radicalized dolphin, beginning a cross-species partnership that might change the world. Stella lives above a brothel on a nomadic, floating tuna farm. Her young life is brutal and precarious, she needs to find a tribe before she is consumed by the jaded world around her. Denial is high-tech adventure set in a world of soulless algorithms, psychotic corporations, and floating ghettos. It is the first book in an epic story arc which takes the reader from a post-internet, post-collapse world, deep into a wildly post-human future.

Brad Meltzer--author of the #1 New York Times bestseller The Book of Fate--returns with his most thrilling and emotionally powerful novel to date. In Chapter Four of the Bible, Cain kills Abel. It is the world's most famous murder. But the Bible is silent about one key detail: the weapon Cain used to kill his brother. That weapon is still lost to history. In 1932, Mitchell Siegel was killed by three gunshots to his chest. While mourning, his son dreamed of a bulletproof man and created the world's greatest hero: Superman. And like Cain's murder weapon, the gun used in this unsolved murder has never been found. Until now. Today in Fort Lauderdale, Florida, Cal Harper comes face-to-face with his family's greatest secret: his long-lost father, who's been shot with a gun that traces back to Mitchell Siegel's 1932 murder. But before Cal can ask a single question, he and his father are attacked by a ruthless killer tattooed with the ancient markings of Cain. And so begins the chase for the world's first murder weapon. What does Cain, history's greatest villain, have to do with Superman, the world's greatest hero? And what do two murders, committed thousands of years apart, have in common? This is the mystery at the heart of Brad Meltzer's riveting and utterly intriguing new thriller

In the epic clash of Greece and Persia, a hero is forged - a monumental novel from the author of the Tyrant series. Arimnestos is a farm boy when war breaks out between the citizens of his native Plataea and their overbearing neighbours, Thebes. Standing in the battle line for the first time, alongside his father and brother, he shares in a famous and unlikely victory. But after being knocked unconscious in the melee, he awakes not a hero, but a slave. Betrayed by his jealous and cowardly cousin, the freedom he fought for has now vanished, and he becomes the property of a rich citizen. So begins an epic journey out of slavery that takes the young Arimnestos through a world poised on the brink of an epic confrontation, as the emerging civilization of the Greeks starts to flex its muscles against the established empire of the Persians. As he tries to make his fortune and revenge himself on the man who disinherited him, Arimnestos discovers that he has a talent that pays well in this new, violent world - for like his hero, Achilles, he is 'a killer of men'.
