Kurt Godel A Mathematical Legend - igt.tlth.org
G 0 del's ontological proof is a formal argument by the mathematician Kurt G 0 del for the existence of God. The argument is in a line of development that goes back to Anselm of Canterbury. St. Anselm's ontological argument, in its most succinct form, is as follows: "God, by definition, is that for which no greater can be conceived. God exists in the understanding. If God exists in the understanding, we could imagine Him to be greater by existing in reality. Therefore, God must exist." A more ...

G 0 del's ontological proof - Wikipedia
Kurt G 0 del, G 0 del also spelled Goedel, (born April 28, 1906, Br ü nn, Austria-Hungary [now Brno, Czech Rep.]—died Jan. 14, 1978, Princeton, N.J., U.S.), Austrian-born mathematician, logician, and philosopher who obtained what may be the most important mathematical result of the 20th century; his famous incompleteness theorem, which states that within any axiomatic mathematical system there are propositions that cannot be proved or disproved on the basis of the axioms within that system ...

[EPUB] Kurt Godel A Mathematical Legend
Kurt Godel was an intellectual giant. His Incompleteness Theorem turned not only mathematics but also the whole world of science and philosophy on its head. Equally legendary were Godel's eccentricities, his close friendship with Albert Einstein, and his paranoid fear of germs that eventually led to his death from self-starvation.
