Power takeoff (PTO) clutches are found on riding lawn mowers. These clutches exist on the bottom of the mower's engine assembly and control the flow of power to the mower's cutting blades. A failing PTO clutch will result in blades that either don't engage or will not properly disengage following use. This operation is crucial to the overall functioning of riding mowers, and thus PTO clutch repair may need to be immediately performed on riding mower models that have a failed clutch.
