Hi, I'm new to your forum. I bought an eMachine T6524 with an MSI MS-7184 (RS482M2 series) mobo. I plan to put in a dual monitor card and need to upgrade the power supply (Would you beleive, eMachine puts a 300 Watt unit on a board that recommends a minimum of 350!). I notice that the original power supply has a 20 pin ATX plug.
