Parkinson's Law is a collection of satirical essays by C. Northcote Parkinson, in the vein of Jonathan Swift or even Mark Twain in that its power comes from the juxtaposition of the perceived self-importance of the language used with the absurdity of the ideas. In 1955, Cyril Northcote Parkinson, a British historian, wrote a humorous essay in The Economist based on his experience in the British civil service. In that essay, Parkinson's first sentence became his eponymous law: "Work expands so as to fill the time available for its completion.". If something must be done in a year, it'll be done in a year. If something must be done next week, it'll be done next week.
