This is the first plain-English, 100% practical guide to supercharged digital advertising personalization: what's here, what's next, and how to make the most of it! Digital advertising and marketing are undergoing a massive, data-driven transformation: practically everything you thought you knew about them is obsolete. In *Personalized Digital Advertising: How Data and Technology Are Transforming How We Market*, pioneering entrepreneur Diaz Nesamoney demystifies the newest technologies, showing non-technical marketers how to use them to precisely target every message to every individual. First, Nesamoney explores the current state of digital advertising, reviewing best practices for maximizing personalization through long-familiar data and targeting technologies. Next, he introduces powerful recent innovations, presenting new best practices for deepening and extending personalization with: New data management platforms Advanced solutions for offline, mobile, and location data Powerful new ad

production and serving technologies Nesamoney then previews emerging disruptive technologies and personalization approaches, from social data to new techniques for anticipating user intent. He concludes by introducing the Digital Advertising Technology Stack: a visual schematic showing how multiple products and technologies come together to radically improve advertising personalization and performance. Personalized Digital Advertising will be an indispensable resource for wide audiences of CMOs and marketing professionals, brand managers, media and creative directors, creative team members, and all students of digital advertising and marketing.

Learn to build and implement a robust Oracle E-Business Suite system using the new release, EBS 12.2. This hands-on, real-world guide explains the rationale for using an Oracle E-Business Suite environment in a business enterprise and covers the major technology stack changes from EBS version 11i through R12.2. You will learn to build up an EBS environment from a simple single-node installation to a complex multi-node high available setup. Practical Oracle E-Business Suite focuses on release R12.2, but key areas in R12.1 are also covered wherever necessary. Detailed instructions are provided for the installation of EBS R12.2 in single and multi-node configurations, the logic and methodology used in EBS patching, and cloning of EBS single-node and complex multi-node environments configured with RAC. This book also provides information on FMW used in EBS 12.2, as well as performance tuning and EBS 12.2 on engineered system implementations. What
