Simply choose and use the materials that best fit your personal classroom needs. The companion interactive CD makes completing and printing the forms easy.

In this new edition of their groundbreaking book Strategies That Work, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading, strategies for integrating comprehension and technology, and comprehension across the curriculum. The new edition is organized around three sections: Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice, suggestions for text selection, and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular "Great Books for Teaching Content," are accessible online. Since the first publication of Strategies That Work, more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. This third edition is a must-have resource for a generation of new teachers--and a welcome refresher for those with dog-eared copies of this timeless guide to teaching comprehension.

More than 200 model narratives help teachers find the words for their report cards--for every situation. Contains comments for student achievement in every content area and language for addressing behavioural and social issues, as well as sentence stems, word lists, and report card writing tips.

Spiral-bound with perforated pages that allow one list of student names to be used across several pages of records. 8-1/2" x 11". Spiral-bound.

To better serve the whole child, look at the whole report card. Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores, too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child. With this book, you'll take report cards to the next level, integrating social-emotional learning and character development into any grading system. Resources include Guided exercises for analyzing existing report cards Suggested report card designs Tips on improving teacher-parent communication Case studies Testimonials from teachers and students

Providing a clear framework, this volume helps school leaders align assessment and reporting practices with standards-based education and develop more detailed reports of children's learning and progress.

What would you do to inherit a million dollars? Would you be willing to change your life? Jason Stevens is about to find out. Red Stevens has died, and the older members of his family receive their millions with greedy anticipation. But a different fate awaits young Jason, whom his great-uncle Stevens believed might be the last vestige of hope in the family. "Although to date your life seems to be a sorry excuse for anything I would call promising, there does seem to be a spark of something in you that I hope we can fan into a flame. For that reason, I am not making you an instant millionaire." What Stevens does give Jason leads to The Ultimate Gift. Young and old will take this timeless tale to heart.
