From New York Times bestseller, Kendall Ryan, comes a sexy new standalone novel. My tempting and very alpha friend Sterling Quinn is someone I consider off-limits. It's not just that we're friends, he's also cocky, confident, and British, which means he's a walking aphrodisiac. But lately he's been giving me the look. You know the one. When he thinks I'm not paying attention, and his gaze lingers for too long. When we start working together, that's when the sexual tension between us gets so thick, I want to hack through it with a machete. I want to make all these deep feelings I've harbored for him disappear, because there's no way this can end well. The lines between business and pleasure become irrevocably blurred, and I'm stuck between a rock and Sterling's very, very hard place. Rather than keep a level head about our

growing attraction, Sterling wants to go all in, showing me just how explosive we can be together. But I've been around long enough to know that this British bad boy is more than my heart can handle. I'm not about to be cast aside like yesterday's underwear when he's done having fun. Sterling's never been told no, and he's not about to put his ego aside and play by my rules. But I never thought he'd fight so dirty.

Uncovering this sexy geek's charm is easy. Keeping her hands off of him is impossible. While he may look like the love child of a movie starlet and an NFL linebacker, Ben Langley has the people skills of a half-drowned porcupine. Why socialize when there are chemistry labs and bad sci-fi flicks? If he has any hope of taking the helm as CEO of the family

In this "perfect 'fix' for the thriller aficionado" (Associated Press) and #1 New York Times bestseller, maverick FBI detective Amos Decker must forge an uneasy alliance with the Defense Intelligence Agency to prevent an international incident that could spell the end of the United States as we know it. Amos Decker witnesses a murder just outside FBI headquarters. A man shoots a woman execution-style on a crowded sidewalk, then turns the gun on himself. Even with Decker's extraordinary powers of observation and deduction, the killing is baffling. Decker and his team can find absolutely no connection between the shooter -- a family man with a successful consulting business -- and his victim, a

schoolteacher. Nor is there a hint of any possible motive for the attack. Enter Harper Brown. An agent of the Defense Intelligence Agency, she orders Decker to back off the case. The murder is part of an open DIA investigation, one so classified that Decker and his team aren't cleared for it. But they learn that the DIA believes solving the murder is now a matter of urgent national security. Critical information may have been leaked to a hostile government -- or worse, an international terrorist group -- and an attack may be imminent. Decker's never been one to follow the rules, especially with the stakes so high. Forced into an uneasy alliance with Agent Brown, Decker remains laser focused on only one goal: solving the case before it's too late.

One conversation is all it takes to break a world wide open. Seventeen-year-old Macy Lyons has been through something no one should ever have to experience. And she's dealt with it entirely alone. On the outside, she's got it pretty good. Her family's well-off, she's dating the cute boy next door, she has plenty of friends, and although she long ago wrote her mother off as a superficial gym rat, she's thankful to have allies in her loving, laid-back dad and her younger brother.

But a conversation with a boy at a party one night shakes Macy out of the carefully maintained complacency that has defined her life so far. The boy is Sebastian Ruiz, a recovering addict who recognizes that Macy is hardened by dark secrets. And as Macy falls for Sebastian, she realizes that, while revealing her secret could ruin her seemingly perfect family, keeping silent might just destroy her. The Fix follows two good-hearted teenagers coming to terms with the cards they were dealt. It's also about the fixes we rely on to cope with our most shameful secrets and the hope and fear that come with meeting someone who challenges us to come clean. It identifies ten pervasive and seemingly impossible challenges—including immigration reform, economic stagnation, political gridlock, corruption, and Islamist extremism—and shows that, contrary to the general consensus, each has a solution, and not merely a hypothetical one. By taking a close look at overlooked success stories—from countries as diverse as Canada, Botswana, and Indonesia—Tepperman discovers practical advice for problem-solvers of all stripes, making a data-driven case for optimism in a time of crushing pessimism.

The Fix by award-winning Bloomberg journalists Liam Vaughan and Gavin Finch, is the inside story of the Libor scandal, told through the journey of the man at the centre of it: a young, scruffy, socially awkward misfit from England whose genius for math and obsessive personality made him a trading phenomenon, but ultimately paved the way for his own downfall. Based on hundreds of interviews, and unprecedented access to the traders and brokers involved, and the investigators who caught up with them, The Fix provides a rare look into the dark heart of global finance at the start of the 21st Century.
