Heating with wood is often considered a natural and economical alternative to electricity or fossil fuels. However, even with a fairly new and efficient woodstove, many cords of wood are required for burning over the course of a single winter, and incomplete combustion can contribute to poor air quality. A rocket mass heater is an earthen masonry heating system which provides clean, safe, and efficient warmth for your home, all while using 70 to 90 percent less fuel than a traditional woodstove. These unique and beautiful installations provide luxurious comfort year round. In cold weather

process with local building departments  
Earthen masonry heating systems are well-suited for natural and conventional builders alike. A super-efficient, wood-burning, rocket mass heater can help you dramatically reduce your energy costs while enhancing the beauty, value, and comfort of your home. Erica Wisner and Ernie Wisner have built over seven hundred super-efficient, clean-burning masonry stoves. They are dedicated to the search for sustainable solutions and the hands-on teaching of creative, ecological, and practical skills.

BLAZIN' JUSTICE Virginia City, Montana. Gold fever struck hard in 1863, with miners pannin' for nuggets up and down the length of nearby Alder Gulch. But a gang of guntoughs was ridin' them roughshod. With the law lookin' the other way, the sidewinders dealt out hot lead for a man shippin' his poke or even carryin' gold dust for his grubstake. Jeff Pierce had been on the hard dodge since Portland, until he staked his claim at Alder

Gulch. As a favor, he carried another miner's poke through the forty miles of danger to Bannack, only to find that the scummy gunhawks had filled the old-timer with buckshot. Now the varmints had Pierce as a marked man. The gang was fixin' for a showdown, but they'd be a mite less cocky if they knew the charge he was up for—murder! "Ernest Haycox is a master and ALDER GULCH is one of his best."—Dallas Times Herald
